In the name of peace!

The Ukranian president Volodymyr Zelensky has started accepting volunteered and until this moment 16000 foreigners have joined the fight against Russian invasion. But for everyone who isn't able to figth in Ukrain can help feed and take care of the new foreigners who joines us everyday to help restoring the order and help defeating the injustice. Russian attacks make us weak, our troops can no longer stand it. I came here to ask everyone to turn to the immediate fire in Cesar, we need help both human ressources and financial resources, we already started receiving the bravest fighters from all around the world. But we also need the means to stand this ware.

We start accepting cryptocurrecies!

We are going to use all the benefits of all the funds to compensate for the damage caused by Russian invasion, we need to replace the homes of many families and take care of whoever decide to join us. Prove that you are a true peace supporter, and then life will overcome death, light will overcome darkness. Glory to Ukraine.
